<b>Overview of the Land Valuation Process.....</b>	<b>7</b>
Role of the Assessor.....	7
Representative Parcels.....	7
Representative disclosure statements.....	8
Land Value Ratio.....	8
Neighborhoods.....	
8	
Maps.....	
9	
Base Rates and Base Lots.....	9
Maximum allowable percentage variance.....	9
Influence Factors.....	11
Role of the Property Tax Assessment Board of Appeals.....	11
Establishing Land Value Maps .....	11
Evaluating Sales Information.....	14
Selecting Unit Values Used for Land Valuation.....	16
Valuing Improved Vacant Platted Lots .....	18
Reporting Township Assessor Results to the Property Tax Assessment Board of Appeals.....	19
<b>Providing General Information on the     Property Record Card.....</b>	<b>29</b>
Task 1—Recording Identification and Classification Data .....	31
Task 2—Recording the Site Characteristics .....	36
<b>Valuing Platted Lots .....</b>	<b>38</b>
Establishing Base Rates for Platted Lots .....	38
Establishing the Effective Frontage and Depth of Platted Lots .....	40
Determining Depth Factors for Platted Lots .....	51
Determining Influence Factors for Platted Lots .....	56
Completing the Land Data and Computations Section of the Property Record Card for Platted Lots .....	58
Task 1—Recording the Necessary Data.....	60

Task 2—Calculating the Land Value .....	64
<b>Valuing Residential Acreage and Agricultural Homesites.....</b>	<b>68</b>
Valuing Residential Acreage Parcels Larger Than One Acre.....	69
Valuing Residential Acreage Parcels One Acre or Smaller.....	70
Valuing Residential Acreage Tracts Using the Front Foot Method .....	70
Establishing Base Rates for Residential Acreage Tracts.....	70
Determining Size Adjustment Factors for Acreage .....	71
Determining Influence Factors for Residential Acreage .....	74
Completing the Land Data and Computations Section of the Property Record Card for Residential Acreage .....	75
Task 1—Recording the Necessary Data.....	77
Task 2—Calculating the Land Value .....	81
<b>Valuing Commercial and Industrial Acreage ....</b>	<b>84</b>
Understanding Commercial and Industrial Land Categories .....	84
Establishing Use Classes for Commercial and Industrial Properties .....	86
Determining the Building Density Ratio .....	87
Establishing Base Rates for Commercial and Industrial Land .....	88
Determining Influence Factors for Commercial and Industrial Land .....	89
Completing the Land Data and Computations Portion of the Property Record Card for Commercial and Industrial Acreage.....	90
Task 1—Recording the Necessary Data.....	93
Task 2—Calculating the True Tax Value .....	96
<b>Valuing Agricultural Land.....</b>	<b>99</b>
Agricultural Land Base Rate Value.....	99
Assessing Agricultural Land.....	100
Converting Units of Measurement for Agricultural Land.....	100

Classifying Agricultural Land into Land Use Types.....	102
Using Soil Maps.....	106
Soil Series .....	106
Soil Map Units.....	107
Soil Complexes .....	107
Understanding the Calculation of the Soil Productivity Index .....	107
Valuing Strip Mined Agricultural Land.....	108
Valuation of Oil and Gas Interests.....	108
Completing the Land Data and Computations Section of the Property Record Card for Agricultural Acreage .....	109
Task 1—Determining the Land Value for the Land Areas .....	111
Task 2—Calculating the Total Farmland Acreage .....	116
Task 3—Calculating the Value of Farmland .....	118
Task 4—Calculating the Value of Classified Land.....	119
Task 5—Calculating the Total Farmland/Classified Land Value .....	119
Task 6—Calculating the Land Value of the Homesite(s) and Agricultural Excess Acres .....	120
<b>Completing the Valuation Record Section of the Property Record Card.....</b>	<b>121</b>
